

2G SUNSET—NOW’S THE TIME!

Because when it comes to life safety, failure is not an option.

And We’re Making It Even Easier For You

Starting April 1, 2016, take advantage of a special incentive: for each 2G radio you swap, you’ll get a \$25 ADI credit. Now is the perfect time to swap out your 2G radios before the sun sets!

Register on AlarmNet360.com, 2G Incentive Tab with your ADI account number.

2G and 3G/CDMA MAC numbers will be required to process the incentive.

At Honeywell, we know when it comes to life safety, failure isn’t an option. The radios you have installed must be functioning properly to ensure alarm signals communicate to the central station if a break-in, fire or other critical event should occur.

Avoid Service Disruption

Major network carriers—including AT&T®—are prioritizing faster communications technologies over slower alternatives like 2G. Many mobile phone users have already upgraded to the latest technology. Due to the upcoming “sunset notice” issued by AT&T, 2G service will be fully transitioned out in the near future. This transition can occur in your location at any time without notice. Why wait?

	Corp	10 Lot	New Lower Pricing
CDMA-X	\$97.00	\$94.00	
GSMX4G	\$97.00	\$94.00	
GSMV4G	\$129.00	\$124.00	
iGSMV4G	\$139.00	\$134.00	

Contact your local District Manager for details or visit www.AlarmNet360.com to register for this special incentive. But hurry! This offer is valid April 1, 2016 – December 31, 2016.

Allow 4-6 weeks for processing.
Must have a valid ADI account number. Account must be in good standing.
2G radio must be registered through AlarmNet®.
Incentive will only be available to process through AlarmNet360.com.
Offer valid in the United States only.
